Iran May Hang Its Ex-Premier

TEHRAN, Iran, (AP)—An informed Army source said today that Iran's government would ask a military court to sentence ex-Premier Mohammed Mossadeq to hang on charges to be announced probably in "three or four days."

(This report from Tehran appeared to discount a dispatch from the Iranian capital to the London Daily Express today that the ex-Premier had been sentenced on Tuesday to hang at the conclusion of a three-week secret trial. There was no immediate comment from Tehran on the Express report.)

The Army source said the government still had not decided whether Mossadeq's trial would be held secretly or in public.

Orders Court Martial

The Shah 10 days ago ordered that Mossadeq be tried by a court martial for his refusal on Aug. 16 to obey the ruler's decree replacing him as Premier by Gen. Fazollah Zahedi and his subsequent actions. Mossadeq was arrested Aug. 20, the day after a public uprising in which 300 persons were killed—

PLAN FOR CHILD CARE CENTER IS TO BE STUDIED

A committee "to investigate the steps necessary to form a day care training center here for severely handicapped children was appointed Tuesday evening at the September meeting of the Adams County Association for Mentally Retarded Children.

The committee was appointed after the group of about 25 educators, parents and other interested persons heard Miss Ethel Wenger, special education consultant from the Department of Public Instruction at Harrisburg, describe the procedures for setting up such day care centers.

The county committee includes: J. Floyd Slaybaugh, county superintendent of schools; George Inskip, supervising principal of the Fairfield Joint School district; Leslie V. Stock, supervising principal of the Upper Adams Jointure; Dr. George Stauffer, special education supervisor for Adams County; Miss Margaret McMillan, representing county welfare agencies, and Mrs. Edward Barnes and Mrs. Donald Wright. The committee will report at the next meeting of the association on October 27 at the court house.

Two Plans Outlined

Mrs. Fred Renner, Fairfield R. D., temporary president of the association, presided at the meeting Tuesday evening.

Miss Wenger explained that day care training centers for mentally retarded children can be set up through two methods. Under one plan the center is set up by the school district with the state paying \$20 per child. There is also a plan by which a parents' group working directly with the Department of Public Instruction may initiate the center with the rooms, light, heat and furnishings to be supplied by the local group.

Eligibility of children to attend would be determined by a school psychologist. The children must be teachable, ambulatory and toilet trained and between the ages of five years seven months and 21 years. The aim of the child care centers is to train the children to feed and dress themselves, talk and do helpful tasks in the home.

Interested persons are urged by the association to get in touch with Dr. Stauffer at his office in the court house.

Littlestown Man Is Fined In Greencastle

Frank E. Stonesifer, 40, Littlestown, paid a fine of \$10 and costs of \$3.50 on a charge of driving too fast for conditions, before Magistrate G. Fred Ziegler, Greencastle, Monday.

The charge came as a result of a collision of his car with another on East Baltimore St. there late in the afternoon.

Calvin Bowman, Greencastle policeman, said that Stonesifer attempted to pass to the right of a car belonging to Dr. W. C. Brewer, and driven by Miss Mary Hafer, just as she made a right turn into the driveway of the Brewer residence.

The right rear door and fender of the Brewer car was damaged to the extent of an estimated \$175, and the Stonesifer car at \$75.

HOSPITAL WILL BE GIVEN BLOOD DONOR ROSTER

The directors of the Adams County Chapter of the Red Cross will offer to the Warner Hospital its list of about 700 blood donors, no longer needed by the Red Cross since the suspension of the Red Cross donor program here.

That action was decided upon at the September meeting of the board of directors Tuesday evening in chapter headquarters on Baltimore St.

At the same session plans were advanced for the annual dinner meeting of the Red Cross to be held at the YWCA building on Tuesday, October 27.

700 Names On List

The blood donor list includes names and addresses of about 700 county residents who volunteered to give blood in the Red Cross program that was suspended August 31 after the war in Korea ended. The prospective donors' blood types also are listed so that the hospital can select donors of the type needed. The Red Cross after World War II took similar action and turned its donor list over to the hospital.

Chairman George L. Haenn presided at the meeting and introduced the new executive secretary, Mrs. Raymond P. Hill, who began her duties August 31.

Mrs. Albert Bachman, home service chairman and chairman of the committee on arrangements for the October dinner meeting, presented her reports. She said 41 home service cases were handled in July and 29 in August. They involved 43 servicemen, 18 veterans and nine civilians. Mrs. Bachman said the first fall meeting of the home service group will be held in October.

Plan Junior Campaign

Mrs. Bachman said a speaker is being secured for the annual dinner meeting. A turkey dinner will be served by the Annie Danner Club members, she said, at \$1.50 per plate.

Mrs. Hill said that Mrs. Ruth Wisler, Junior Red Cross chairman, is completing plans for enrolling Juniors throughout the county schools this fall.

Elmer M. Gruver, chairman of the Finance committee, called a budget meeting for next Tuesday evening at 8 o'clock in the Red Cross office.

Mrs. Frank H. Kramer, the county chapter's representative on the Camp and Hospital Council for this area, said she and Mrs. Hill and Mrs. Edmund W. Thomas will attend a council meeting October 6 at New Cumberland.

The removal of Eddie Leroy Kemp, 42, from New York to Gettysburg, on charges of biting off the ear of another man, was postponed Tuesday to Sept. 28 by U. S. Commissioner Edward W. McDonald, pending the arrival there of removal papers.

Kemp, a negro, allegedly committed the ear biting during an altercation with Benson Reese, 28, of the Bronx, at the Lettermann Arsenal in Chambersburg, where both were employed as painters.

The original complaint in the case was filed September 4 before U. S. Commissioner Edward B. Bulleit here by the FBI.

FIREMEN HEAR MORE PLANS OF AIR RAID TEST

Further plans for the air raid test to be held throughout Adams County and the state October 6 were given Tuesday evening by County Civil Defense Director William G. Weaver during the county-wide test of the fire company radio network. The network is set up both for Civil Defense and fire work.

Weaver told all fire companies to have their two-way radio sets in operation at 6:55 o'clock the evening of October 6. The county-wide alarm for the air raid test will be sent out over the radio network at 7:02 p.m.

The test will determine the feasibility of using the radio network for the sending of such alarms during an actual emergency. With the use of the radio network and the regular telephone system, the county could be guaranteed of warning service at any time, Weaver said.

Call State Meeting

Weaver urged Civil Defense representatives from each community to attend a state-wide Civil Defense meeting September 29 at the Civil Defense office in Harrisburg. The session will start at 9:30 a.m.

"Great Improvement" was shown by this week's test over last week's first attempt, Roger Myers, deputy civil defense director for the county, said following the test.

Radio operators showed more ease in operation at Tuesday's test. Nearly all fire companies were able to contact each other, with atmospheric conditions and better operation of the sets contributing to the better results, Myers said.

In the midst of the test New Oxford fire department answered a call. The wailing of the siren at New Oxford was heard throughout the county.

The firemen were called to a fire at Cross Keys where a motorcycle was burning. The driver, Truman Beaver, of Irishtown, was unhurt. The motorcycle was damaged.

The companies, which began acquiring Currier and Ives prints in 1937, now own one of the largest collections in the midwest. Included in the 50 to be shown at Harrisburg are 15 which art experts have selected as the best Currier and Ives ever produced. Mirroring 19th century life, the Farm Bureau collection has given special attention to those reproducing rural scenes.

Workman Injured In Fall At Quarries

Clifford G. Laughman, 51, Hanover R. 3, an employee of the Bethlehem Quarry Company, along the Hanover-Carlisle highway, was injured about 8 p.m. Friday while at work as a member of the yard shifting crew and was taken to the Hanover Hospital for examination and treatment. Hospital authorities reported he suffered a depressed fracture of the skull and injuries to one hip.

Officials of the quarry company reported that Laughman was serving as a rear brakeman and had just put the brakes on the end car of a seven-car train when he slipped or caught his foot in the brake rods, causing him to be thrown to the ground. A fellow employee, missing Laughman, investigated and found him lying along the tracks.

FAIRFIELD TO HAVE NEW DATA ON WATER PLANS BY OCTOBER 1ST

The Fairfield borough council expects to have by about October 1 all the facts that will enable them to make decisions on plans for Fairfield's prospective water system that will open the way for advertisements for bids.

William Sees, Harrisburg consulting engineer, is at work now revamping plans and cost estimates on the basis of a proposed change in the source of supply from the Geigley quarry to the Maple Springs, west of Fairfield along the Iron Springs Rd.

Although no final decision has been made on the change in the source of supply, members of council are reported as favoring Maple Springs after extensive tests of the flow of water during the August drought and the quality of the water itself.

Take Option On Land
The Fairfield Chamber of Commerce as a gesture of cooperation and support of the project is reported to have paid the cost of an option on 108 acres of land now owned by Mr. and Mrs. Olmer Spence and including the spring site.

The spring water is described as "soft" and the flow is of such volume as to assure enough water for Fairfield's foreseeable needs, tests have shown.

Mr. Sees conferred last week with Fairfield borough officials and promised "in about 15 days" revised figures and plans so that final decisions can be made on the shift

TWENTY-FIVE YEARS AGO
40 Hours Start Sunday: Forty hours adoration at St. Francis Xavier Catholic Church commenced Sunday at 10 o'clock with a solemn high mass, with the Rev. Father Mark E. Stock celebrant. Procession of the Blessed Sacrament marked the opening of the annual period of adoration.

A sermon by a Redemptionist Father was given at the solemn high mass Sunday. The Blessed Sacrament will be exposed until Tuesday evening.

Aspers Man Weds Lancaster Girl: Charles W. Pitzer, son of Mr. and Mrs. Ira C. Pitzer, of Aspers, and Miss Edna M. Rote, of Lancaster, were married Saturday morning at 10:30 by the Rev. W. D. E. Scott, at the latter's residence on Baltimore street.

They will reside in Lancaster where the bridegroom is employed.

Comfort Station for Military Park: The first modern public comfort station in the national military park reservation was opened Saturday in the national cemetery. William J. Koch, a veteran of the Spanish-American war, is in charge of the station.

The building cost approximately \$12,000, according to James W. Bodley, superintendent of the cemetery. It serves a long-felt want on the battlefield.

Buy McPherson Building for \$140,000: One of the most important real estate transactions in the history of Gettysburg—sale of the McPherson block of buildings on Baltimore Street, to the G. C. Murphy company, of McKeesport—is in process of consummation.

According to Judge D. P. McPherson, trustee of the property, formerly owned by his mother, Mrs. Anne C. McPherson, the transfer will take place on or about October 1.

The purchase price for the four buildings and a lot of ground on West Middle Street was \$140,000. In court Saturday J. Donald Swope, representing Judge McPherson, the trustee, presented two petitions for an order of private sale to Judge E. M. Biddle, of Carlisle, specially presiding. A third petition for the private sale of a lot of ground on the Mummasburg road to Judge McPherson also was presented and approved. The purchase price of this tract approximately 58 feet, was \$600.

Couple Wedding at High Mass: Miss Mary Ellen Althoff, daughter of Mr. and Mrs. Charles C. Althoff, of near Gettysburg, and Charles C. Lawrence, son of Mr. and Mrs. Joseph A. Lawrence, of McSherrystown, were married at a high nuptial mass in St. Francis Xavier Catholic Church Tuesday morning. The Rev. Father Mark Stock officiated. The mass was sung by the parochial school children.

The couple were attended by Miss Agnes H. Althoff and Rodney Poist.

College Opens: Gettysburg College Wednesday morning at 11 o'clock, with appropriate services at Bruns opened its ninety-seventh term chapel.

Dr. Henry W. A. Hanson welcomed the students. The freshman class is the largest in the history of the school.

Dr. Hanson announced that Gettysburg College will have a memorial library, to be known as the Emma Weber Memorial library, the funds for which were contributed by Dr. H. H. Weber, for a number of years secretary of the Lutheran board of home missions and church extension, with his residence in York.

Work will commence on the building next month.

Today's Talk

By **GEORGE MATTHEW ADAMS**
CREATORS, DISCOVERERS,
AND OBSERVERS

Youth is the time when the creative instinct is very active. The small boy dreams of the time when he can be an engineer, a sea captain, or a great artist. He likes to make things and see them completed. This is most commendable, for it keeps incentive alive.

Anything created that gives pleasure to one, or that is useful in some way, serves well. So do the discoverers who have been the means of opening up new opportunities for others. Even the observers are important for they are the ones who so often offer improvements.

Just go back in memory to the "horse and buggy" days. No automobiles, no airplanes, and transportation means only in their crude beginnings. It's the creators, the discoverers and the observers, who have changed all this. Who would have dreamed of eating breakfast in New York and dinner in London on the same day? Even with all these advancements we are in the infancy of enjoyable and useful creations.

The telephone, radio, and TV still fill me with wonder as miracles! I recently read of a new automobile that the Ford Company is working out that will have more than anyone has ever imagined for a car! One item alone is astounding—eight miles of wiring! Will wonders ever cease? Not so long as there are creators, inventors and those who took on that they may learn about something better.

To remain alive and useful, as well as interesting, we must keep our eyes open. If it's no more than making a better mouse-trap, so long as people need one, that is service in itself. That's why Emerson used this simple illustration to bring out a point. People who are alive and alert never grow dull. They are good listeners, too, which always serves one well!

Tomorrow Mr. Adams will talk on the subject: "The Furniture Of The Mind."

Say: "Very well!"
Although you have an ache or two,

When "How are you?" your friends inquire,

They've neither time nor the desire

If you are up and at your task

NIXON TO ADD WORD ON PLAN TO ALTER T-H

ST. LOUIS (AP)—Vice President Nixon was expected to add a new word today to the conflicting claims between the White House and AFL over a plan to change the Taft-Hartley Law.

Nixon scheduled an address to the AFL convention which yesterday heard resigned Secretary of Labor Martin Durkin say President Eisenhower personally repudiated a promise to him on supporting T-H Law changes.

Durkin, an AFL leader and Democrat, quit the Cabinet post Sept. 10 in a row over his claims Eisenhower agreed to a series of changes, only to later break the agreement.

The White House fired back a prompt denial that any such pledge had been made. James Hagerty, Eisenhower's press secretary, said in Washington: "On checking, I find there has been no decision made by the President on any suggestions or detailed recommendations for any change in the Taft-Hartley law."

Durkin Vs. Ike

This appeared to pit Durkin's word against Eisenhower's. Because Durkin told the AFL delegates he had engaged in a series of conferences on the T-H problem, that he finally reached agreement with Eisenhower's aides on amendments to be submitted to Congress, with word that they had the President's okay. He said he later got Eisenhower's promise in a personal, face-to-face meeting to support the amendments.

Actually, the argument may remain just a battle of words because suggesting amendments to Congress is a different thing than getting Congress to approve them. However, Durkin's position is understood to be he wanted Eisenhower's support for the effect it might have on Capitol Hill.

As to Durkin's claim he had an agreement and the White House denial that President Eisenhower agreed to anything, Durkin replied: "My speech contained the facts."

Meany Backs Durkin
AFL President George Meany, whose 10-million-member federation was stirred by the whole thing, said he sided with Durkin. Meany said:

"I've known Durkin for 30 years and I don't believe he would distort the facts. I believe what he said is true."

Durkin was on the point of tears when he finished his speech yesterday at the University of Pennsylvania.

ROOMMATE OF SLAIN ATTORNEY IS EXONERATED

PHILADELPHIA (AP)—Detectives investigating the brutal slaying of Elmer Schroeder, 55-year-old attorney and well-known soccer official, released a former roommate of the dead man yesterday after several hours questioning.

Homicide detectives said they are convinced John C. Beardmore, 26, a friend of Schroeder's, was not involved in the murder.

Beardmore was quoted by police as saying he had met Schroeder a few months ago and the older man later asked him to move in with him because Schroeder was ill. Beardmore said he stayed two weeks in Schroeder's expensively furnished apartment and then returned to his own quarters. He said he had not seen the slain man since yesterday. His voice broke as he said that although he felt he had to quit the Cabinet because a promise was, as he claimed, broken, he wished Eisenhower the best for the future.

He had been in contact with him only once when he telephoned to inquire whether any of Beardmore's mail had been delivered there.

Apartment employees found Schroeder's brutally beaten body gagged and trussed to a blood stained bed Monday afternoon. His head had been badly beaten by what police surgeons described as "a heavy instrument struck with great force."

The apartment had been searched and his wallet emptied indicating robbery as a possible motive, police said.

Dr. William S. Wadsworth, chief medical examiner, said the killer may have been "a short, stocky man with tremendous strength."

Police said Beardmore fails to meet that description. He is about five feet, eight inches, and of medium build.

Schroeder was a bachelor and had lived alone for several years. He was a member of a prominent Philadelphia legal firm and had an international reputation in the soccer world. He was elected to the Soccer Hall of Fame in 1951. He coached a number of championship teams, traveled with American soccer teams in Europe and South America and was a member of the U. S. Olympic committee.

14 PRISONERS ARE SENTENCED ON RIOT COUNTS

BELLEFONTE, Pa. (AP)—A Centre County Court yesterday found 15 prisoners guilty of riot charges stemming from last January's three-day outbreak at nearby Rockview Penitentiary.

Judge Ivan Walker sentenced 14 of the defendants to 1½ to 3 year terms in prison to start at the expiration of their present sentences.

Meanwhile, the state continued its case against 14 other inmates, also standing trial on charges of riot. Their trial began yesterday with Sgt. Allison Hollabaugh, a prison guard, and Sgt. George Fimmin of the Pennsylvania state police, testifying on how the riot developed.

One prisoner convicted yesterday, Donald L. Ray, Washington County, was not sentenced because of an additional conviction against him on robbery charges growing out of the same riot. Judge Walker set Oct. 5 for a hearing in Ray's case.

Guilty Of Assault
In another development a verdict of guilty of riot and assault and battery was handed down against John J. Ciesielski, Allegheny County.

Ciesielski was acquitted on an additional charge of robbery arising out of the theft of pistols from four guards held as hostages. He had pleaded guilty to the riot charge.

Judge Walker sentenced him to 1 to 2 years in the county jail for assault and another 1 to 2 years for riot to run concurrently at the charge.

Allie Reynolds Looks Good Against A's And May Be On Mound For First Series Game

By BEN PHLEGAR

AP Sports Writer

It could well be that Allie Reynolds has fastballed his way into the job of opening the World Series for the New York Yankees a week from today.

The veteran speed merchant certainly has erased all doubts as to his fitness. And last night he gave Charlie Dressens spies an eyeful of some of the best pitching performed by any member of the Yankee mound staff this season.

Working against the admittedly weak Philadelphia Athletics Reynolds blazed his way to 11 strikeouts in seven innings while giving up two measly singles and walking four.

Prime Factor In Victory

He struck out the side in the first inning and whiffed seven in the four innings. At the end of seven Casey Stengel decided he had seen enough of Reynolds for the evening. And what he had seen had made him very happy.

Neither Stengel nor Dressens disclosed his World Series pitching rotation. But Reynolds fine form in recent weeks has inspired considerable support for the big chief to pitch the opener.

Reynolds, a 20 game winner a year ago, was sent to the bull pen late this spring because Stengel considered him more valuable in relief. The day the Yanks clinched their fifth pennant the New York manager declared Reynolds had been a prime factor in the 18 game winning streak in June and that he thought that streak had guaranteed the flag.

42nd For Zernial

The Oklahomaan is 36 years old. He has appeared in five World Series, pitching 69 1-3 innings in 12 games and has a 6-2 record. The New York Giants beat him once in 1951 and the Dodgers beat him once and lost to him twice last fall.

The Yankees beat Philadelphia 7-2 last night with both Philadelphia runs coming off Bob Kuzava who pitched the last two innings. One of them was Gus Zernial's 42nd home run, a blast which kept him one ahead of Cleveland's Al Rosen in the American League home run derby.

Rosen hit his 41st in Cleveland's 3-3 decision over Chicago. By winning the Indians virtually clinched second place. They lead the White Sox by three games with four to play.

Brooks Win Again

In other action yesterday the Brooklyn Dodgers closed their Ebbets Field season by tying the National League record of 60 victories and 17 losses. They beat Pittsburgh 5-4 in the final game. Milwaukee and St. Louis split as did Cincinnati and Chicago. Milwaukee beat St. Louis in the first game 4-3 and lost the second 10-7. Cincinnati edged Chicago 1-0, then lost 4-1. Philadelphia whipped the New York Giants 9-3.

The St. Louis Browns continued to pick on the only team in the league they can beat, the Detroit Tigers and scored a 7-3 victory. The Browns defeated Detroit 15 times in their 22 meetings.

The Dodgers' victory over Pittsburgh was their 10th in 22 meetings. Junior Gilliam scored the winning run in the eighth when he hit a pinch hit double, stole third and scored on a wild throw. Brooklyn now is one shy of its all time best winning total of 104 games.

47th For Eddie

Eddie Mathews hit his 47th home run in the first game at St. Louis but he committed two errors in each game of the twin bill. Joe Adcock also homered in the opener. Stan Musial, still fighting to keep his batting crown, collected five hits in nine times at bat. He raised his average to .333 and would need an average of three hits in every four times the rest of the season to catch the injured Carl Furillo of Brooklyn who leads with .344.

A three run home run by Bill Serena gave the cubs the second half of the Cincinnati twin bill after they had been blanked by Fred Baczewski, a former teammate, in the opener.

The Phillies pounded four New York pitchers for 13 hits, making it easy for Curt Simmons to win his 15th game.

Three Penn Men Certain As Starters

HERSHEY, Pa. (AP)—Looking for a grid lineup that can go the 60-minute distance against Vanderbilt next Saturday, Coach George Munger of the University of Pennsylvania says only three Red and Blue players are certain of starting assignments.

George Bosseler and Joe Varattis have tied down backfield jobs. Munger said, and Jack Shanafelt seems to be a fixture at left tackle.

Rocky Marciano Is Favored Thursday

NEW YORK (AP)—The odds favoring heavyweight champion Rocky Marciano over challenger Roland LaStarza soared to 4½ to 1 today and may go even higher when the two step into the Polo Grounds Thursday night for their 15-round title fight.

Despite the long odds and the fact that there are few among the fight mob who give the 26-year-old contender a chance, interest in the fight continued to mount.

Ringside seats were selling beyond the 18th row. Ticket scalpers were demanding and getting handsome premiums for the \$30 ringside seats within the first ten rows.

Jim Norris, the president of the Club, predicted that he would have at least \$300,000 in the till the morning of the fight.

LOPEZ TO LEAVE TRIBE; GOING TO LEAD REDLEGS

NEW YORK (AP)—Al Lopez will leave the second place Cleveland Indians to manage the second division Cincinnati Redlegs next year, it was learned today.

Lopez is expected to be succeeded by George Tebbetts, former Cleveland catcher who currently is manager of the Indianapolis club of the American Association. Indianapolis is a farm team of the Indians.

In Cincinnati, Gen. Manager Gabe Paul of the Redlegs said, "no comment," when asked if Lopez had been hired.

Change To Firebrand

The Cincinnati job was left vacant last week when Rogers ormsby was fired.

Lopez, about to finish his third season as Cleveland manager, never finished lower than second. His club was runner-up to the New York Yankees in 1951 and 1952 with identical 93-61 records and currently is second to the Yankees for the third straight time.

Tebbetts, like Lopez, is a veteran catcher with lots of major league experience behind him. He left the Indians at the end of last season to take over the reins of Indianapolis. Whereas Lopez is known as a quiet, mild-mannered leader, Tebbetts is a firebrand type of manager.

SAYS 2 MILLION DISABLED CAN BE REHABILITATED

PITTSBURGH (AP)—Government surveys show two million disabled Americans can be rehabilitated for productive work, says a University of Pennsylvania medical official.

Dr. Norman H. Topping, vice president in charge of medical affairs at Penn also told the Pennsylvania Medical Society at its 103rd annual session yesterday that public assistance benefits to disabled persons in 1953 will amount to 500 million dollars.

Dr. Topping, former assistant surgeon general of the U. S. Public Health Service, said about 66,000 citizens were restored to productive occupations in 1951. However, he declared this "does not begin to meet the challenge of the 250,000 newly disabled each year."

Need Cooperation

He said medicine must take primary responsibility for rehabilitation but added a "team effort also must employ the wide array of talents of physical therapists, occupational therapists, nurses, medical social workers, vocational counselors and psychologists."

The society's Benjamin Rush Award, given each year to an individual and a group for outstanding work in the field of health, went to T. Ellwood Sones of Bellefonte and the Committee of Five, Berwick blood procurement plan of Columbia County.

Sones, Centre County school superintendent, won the individual award for "outstanding service to rural health." He devoted more than 20 years to various rural health projects, including establishment of the state's first county-wide rural school nurse program.

"Excellence in the organization in better than 50 per cent of their professional fights.

In 79 pro fights since 1952, Sala has won 74 times, 48 by knockouts. He has lost five, being flattened twice.

Troy started out in fast fashion, winning his first 19 starts, 13 by knockouts, before he was stopped last March by Holly Mims, a fellow Washingtonian.

Toronto Or Montreal And Not Baltimore To Get Browns' Franchise, Executive Predicts

HUTCHINSON IS SIGNED AGAIN BY DETROIT TIGERS

DETROIT (AP)—A season-long guessing game was at an end today with the appointment of Fred Hutchinson as manager of the Detroit Tigers for 1954.

Hutch, who pulled the Tigers out of the American League basement, agreed to a one-year contract yesterday, thereby ending all speculation as to his future with Detroit.

During the season one Detroit newspaper said Hutchinson wouldn't be the Tiger manager in 1954 while another said he would. Nobody knew for sure.

Up To Sixth Place

Now it's definite. Hutch will be back and he says: "Well be a better team in 1954. We have to make a few changes but we should continue to move up. What we need most is a good relief pitcher."

Hutch agreed to only a one-year term and that ordinarily wouldn't indicate a vote of confidence. But in Hutch's case, it does. In recent years the Tigers have used the policy of hiring all their help on a year-to-year basis.

Spike Briggs, president of the Detroit Tigers, said he was satisfied with the progress Hutchinson made with the team this year. The 34-year-old manager guided the Tigers from deep in the cellar to sixth place, where they stand today.

NEW YORK (AP)—Toronto or Montreal—and not Baltimore as everyone thinks—will get the St. Louis Browns' American League franchise in the opinion of one major league executive, but his prediction ran into denials on all sides today.

The executive, who asked not to be identified said that "at least three clubs will vote against moving the Browns to Baltimore."

"Clark Griffith of Washington and the Macks of Philadelphia don't want Bill Veck (Browns' owner between them," he continued. "Don't expect the Yankees to vote for Baltimore, either. . . it's my guess the Browns will be in Toronto next year."

Likely Toronto

"I'd say it is a 60-40 proposition right now between Toronto and Montreal with the odds favoring Toronto. I understand Veck and Jack Cooke of Toronto have some sort of an agreement between them."

But all the parties concerned were quick to deny that the executive had his facts straight.

"It's news to me," said Veck in Chicago. "That informant knows things I don't."

Plenty of Denials

Griffith was even more emphatic. "It just isn't so," he said. "on the contrary, I'll vote for Baltimore no matter what the other clubs favor."

Commented Roy Mack, executive vice-president of the A's: "I intend to go to the owners' meeting with an open mind on the Browns' situation. I do not intend to reach a decision on the matter until Veck has presented his plans to the owners."

The meeting to decide on the fate of the Browns is scheduled for this Sunday here.

ARENDSVILLE MEN RETURN TO WORK TONIGHT ON SCOUT ROOM

Arendtsville's Boy Scouts hope to be in their new home early in October, courtesy of the Arendtsville Fire Company and the men of the community.

Sponsored by the two churches of the community, the 24 members of the Boy Scout troop had been meeting in the fire house when firemen, believing the boys should have a place of their own that they could "really fix up" as a scout headquarters, began eyeing the cider mill of Harry C. Raffensperger.

The old mill, after many years of usefulness, had been closed a number of years ago and stood abandoned for all practical purposes. The firemen talked the matter over among themselves and decided that with a little fixing the old frame cider mill on Pearl St. in Arendtsville could be made into an ideal Boy Scout headquarters.

Men Swing Into Action

Arrangements were made to purchase the place from Mr. Raffensperger late last spring.

Men of the community then swung into action, with the able assistance of the scouts, who joined their elders in the work. The old cider press was torn out in two nights' work and the parts went to the junk yard.

Then the men and scouts began fixing the roof, putting up two cement walls to replace open sections, putting in lights and plumbing.

By that time the peach season came along and everyone had to abandon the volunteer project in favor of the peach crop.

Tonight the men and scouts renew their renovation work at 6:30 o'clock. They hope to have the work far enough advanced to permit pouring of a concrete floor next week.

Three Enroll For Retail Food Course

Three local men have enrolled for the fourth modern retail food store operation course offered by Elizabethtown College.

They are Cyrus G. Bucher, assistant sales manager, and Fred E. Slaybaugh, salesman, both with the C. H. Musselman Co., and Russell C. Gilbert, retail grocer, all of Biglerville.

The 11-week course enrolling 21 and meeting each Wednesday evening is conducted by 14 instructors.

Elizabethtown, together with Temple and Rutgers Universities, is one of three colleges in eastern United States offering this type of course.

The course, coordinated by K. Ezra Bucher, college treasurer, is sponsored jointly by the college and the York, Lebanon, Harrisburg and Lancaster wholesale grocery companies.

FARM CALENDAR

Plan Corn Storage

If your corn crop is so large that it will need additional storage space, Charles G. Burress, Penn State extension agricultural engineer, suggests early planning. He reminds that your county agent can help in planning new or remodeled cribs or bins. He also has plans for corn drying.

Gather Eggs Easily

Poultrymen can save steps themselves by letting the laying hens do the walking. F. H. Leuschner, Penn State extension poultry specialist, suggests arrangement of the nests in one section of the pen, preferably near the door. This will save time and effort in gathering the eggs.

Lean Pork Wanted

Consumers are showing more and more preference for lean pork produced by the meat-type hog. According to Dwight Younklin, Penn State extension livestock specialist, this meat-type hog can be produced with any breed by selecting the longer-bodied, smoother and firmer-fleshed gilts.

Mulch the Shrubs

To help maintain soil moisture for shrubs now and during the winter, apply mulch materials at least three inches deep after watering and then wet the mulch, suggests John Moszaros, Penn State extension ornamental horticulturist.

Check on Herd Health

Only a healthy, high-producing herd should be stable for winter milk production, emphasizes Joe S. Taylor, Penn State extension dairy specialist. He urges checking on the health of all animals, including heifers added to the herd.

Clean Air Cleaner

Working in dusty fields is hard on the tractor. Burton Horne, Penn State extension agricultural engineer, says that cleaning the air cleaner will aid efficient operation.

When to Plant

Spring is the best time to plant strawberries in Pennsylvania, not the fall. Carl Bittner, Penn State extension fruit specialist, suggests that you order your plants for delivery next spring, then plant them just as early as weather permits. Ask your county agent for Circular 290, "Growing Strawberries in Pennsylvania."

Avoid Wheat Damage

Injury to wheat caused by Hessian flies can be prevented by planting after the fly-free date, according to John Pepper, Penn State extension entomologist. The earliest fly-free date in Pennsylvania is September 26. The date varies according to location and is available for each county from the county agent.

Control Lawn Weeds

A good turf is the best weed control in a lawn, says Albert Cooper, Penn State ex-

SAYS '53 FAIR WAS "SUCCESS"

Financial reports on the 1953 South Mountain Fair are incomplete but Robert C. Lott, president of the fair association, said today the fair was "a financial success in spite of the rain that cut the crowd on our final day."

Mr. Lott said an early meeting of the fair board will be called to complete reports on the fair held the first week of this month. The date for the meeting has not been set.

There were more exhibitors at the '53 fair than ever before, Mr. Lott said, and the quality of the exhibits was better. He declared the fruit building is due special mention and said the horse show on the last day of the fair was the best ever held there.

"We had a fine fair but we're open for suggestions on ways to improve in our 1954 exposition and will welcome any proposals on ways of making our fair better for the exhibitors and the public in general," the fair president asserted.

JUSTICE BELL IS SUGGESTED FOR HIGH COURT

PHILADELPHIA (AP)—Pennsylvania Supreme Court Justice John C. Bell Jr. has been recommended to President Eisenhower by a group of prominent attorneys and jurists as successor to the late Chief Justice Fred M. Vinson of the U. S. Supreme Court, the Philadelphia Inquirer said today.

The Inquirer said Bell, a Philadelphia, and former lieutenant governor of the state, had the endorsement of Pennsylvania's two GOP senators, Edward Martin and James H. Duff.

Former U. S. Supreme Court Justice Owen J. Roberts, retired dean of the University of Pennsylvania Law School, was reported by the Inquirer to be heading the movement to recommend Bell for the high court, along with State Supreme Court Chief Justice Horace Stern, Justice T. McKee Chidsey, former U. S. Sen. George Wharton Pepper and State Atty. Gen. Robert E. Woodside.

The 60-year-old Justice has long been active in civic and political affairs and was active in amateur athletics for many years.

President Faces One Of Most Serious Years Of His Life; Big Problems On Doorstep In D.C.

By JAMES MARLOW

WASHINGTON (AP) — President Eisenhower has returned from vacation to face one of the most serious years of his life. Budget, deficit, taxes, prosperity, defense, trade, Korea, dealing with the Russians. All are on his doorstep, waiting.

For 1953 was a period of getting ready for 1954, and later. In his Boston speech on Monday the President said frankly the record of his administration has been too short to be "anything like definitive." More than just the record of his administration and party is at stake next year.

For one thing, the budget. He wants to wipe out the federal deficit, the gap between government income and spending. All over Washington these days officials are busy preparing the budget. Eisenhower will hand Congress in January.

He cut government expenses in 1953. He says he wants to cut them more in 1954. The biggest expense, and therefore the juiciest target for cutting, is in national defense. But in 1953 the Russians claimed to have produced the hydrogen bomb.

Eisenhower must decide whether national safety can stand any further cuts in defense. A country which talks tough, as this one has been, while reducing money on armaments, will hardly impress the Russians or assure American allies.

In 1954, through taxes which will end automatically or be reduced automatically, the government faces a loss of billions of dollars. Heavy cuts in expenses will be necessary to overcome that loss unless, perhaps, the administration can find a new kind of tax, maybe a sales tax, to make up the lost revenue.

TWO CONFESS KILLING MAN

HARRISBURG (AP)—Two Tennessee men have pleaded guilty to the fatal shooting of a gasoline station and tourist camp attendant.

William Loveday, 19, of Knoxville, and Leonard Mahaffey, 22, Cleveland, entered the guilty pleas Monday in Dauphin County Court as their trial was due to begin.

A companion of Loveday and Mahaffey, George D. Smith, 26, also Cleveland, was found guilty of first degree murder Saturday in the same killing. The trio was accused of the slaying of David W. Fawber, 79, last July. Fawber was shot when he attempted to resist a hold-up.

Judge Walter R. Sohn granted a continuance in the trial of Loveday and Mahaffey until other cases before the court can be heard. No date was set for the taking of testimony by three or more judges who will then pronounce the sentences.

DEFER TRIAL OF NINE CONVICTS

PITTSBURGH (AP)—The trial of nine convicts accused of prison breach in a mass escape from Western State Penitentiary last Nov. 30 has been postponed until Thursday.

Judge Henry X. O'Brien set back the trial after defense attorneys asked for more time to prepare their cases. The attorneys claimed prison officials had intercepted letters exchanged by the lawyers and their clients.

The accused, each handcuffed to a deputy sheriff, filed into the courtroom under heavy guard on Monday. They are Virgil Toney, Nick DeRembels, Ralph Mastermonica, Melvin Loveland, Andrew Wite, James Milk, Hugh Matticks, Carmac McNelis and Leo Stiles. Along with Clayton Terhune, the nine led police and FBI agents on a week-long chase through five states before they were caught. Terhune will not stand trial because he already is under a life sentence for murder. The others are serving terms ranging from 2 1/2 to 97 years for burglary, robbery and other crimes.

Gives Up Hamsters As Hobby; Had Too Many

PITTSBURGH (AP)—Seymour N. Seltman was shopping around for a hobby last January and finally decided he would like to raise hamsters.

Yesterday, about nine months and several hundred hamsters later he called the Animal Rescue League and asked for help. He explained:

"It was a nice hobby while it lasted. I built some pens in the cellar and enjoyed watching the little animals. Pretty soon there were 16 baby hamsters. Then they grew up and—oh, it's a long story." Seltman said he has given away or sold at least 1,000 hamsters since January and he wanted the Animal League to pick up 300 still at home because—"this could go on forever."

U. S. Asks Parley On Neutral Issue

UNITED NATIONS, N. Y. (AP)—The United States Tuesday proposed that the U. N. and Communist representatives at the Korean peace conference decide whether they want any neutral countries to take part.

The proposal was made by U. S. Delegate Henry Cabot Lodge Jr. who offered to send a representative to Geneva, Honolulu or San Francisco to discuss arrangements with the Chinese Communists and North Koreans.

Lodge spoke in the 15-member Steering Committee of the U. N. General Assembly in opposing a move by Russia's Andrei Y. Vishinsky to have the Assembly reopen debate on the composition of the peace conference.

Lodge told the committee the U. N. has already selected its representatives and that the Communist side was established in the armistice agreement.

OATIS AND NOEL WIN OPC AWARDS

NEW YORK (AP)—Associated Press Staffers William Oatis and Frank Noel have received Overseas Press Club honors they won while prisoners of Communists on opposite sides of the world.

The two were on the press club's list of award winners in April, 1952. Oatis then was in a Czechoslovakian prison and Noel was in a Chinese Communist prison camp in Korea.

Oatis and Noel, both recently released, received their awards Monday night in person during a premiere of the Bing Crosby movie, "Little Boy Lost," at the Rivoli Theater. Proceeds from the premiere will go to the Overseas Press Club's memorial press center fund.

Oatis, AP bureau chief in Prague when he was arrested by the Czech government for so-called spying, won the \$500 George Polk memorial award for "courage, integrity and enterprise above and beyond the call of duty."

Noel, captured while photographing the Korean War, was given an award for the best picture report-

BANKERS GIVE GREAT OVATION TO EISENHOWER

WASHINGTON (AP)—President Eisenhower urged the American Bankers Assn. Tuesday to seek policies that are "sound for all Americans—not for just one class, group or segment, but for all."

The President received a tremendous ovation of applause whistles and cheers from the 3,800 bankers and their wives who filled Constitution Hall for his brief message of welcome to their convention.

He thanked them for "splendid work in helping to sell and distribute the government's savings bonds to all people."

"With more than 40 million people owning more than 50 million dollars worth of bonds, we know there is still an incentive and a determination to save—an incentive that is responsible for so many good things we enjoy," Eisenhower said.

Before the President's brief appearance Secretary of Agriculture Benson told the bankers that the nation's farm policy should shift away from what he called centralization of power and undue dependence on government. He told the delegates they are in position to help strengthen the rural economy.

In another prepared speech W. Harold Brenton, president of the association, said bankers must become "sound money" missionaries throughout the country if financial disturbances calling for government intervention are to be avoided.

INTEREST IN OLD CARS IS GROWING IN DILLSBURG ONE 1913 MODEL

Ancient autos are "catching on" in the Dillsburg area. At least three of the machines that made father quite a debonair character in his younger days are now cruising the highways in the Dillsburg section.

John C. Baker, Dillsburg R. 1, owner of the Clear Springs Motor Court, is the proud possessor of a 1913 Model T Ford, now in its original traveling condition, after having been "modernized" possibly somewhere around 1930.

The "Torpedo Roadster" now has its original glitter of brass, after such articles as new-fangled lights, and a special streamlined body section protecting the driver have been removed.

The "Torpedo" is a vehicle of trim distinction. Its windshield is large, and in two sections. The top part stands erect to protect the head of the driver, the bottom half extends forward at an angle, to permit full vision, and also to allow the operator to get his feet on the controls.

Providing the motive power for the roadster at the present time is a model T engine of more recent vintage, but the original motor is due back from an overhaul and soon the car will be in exactly the same prime condition that it had when it came from the factory in 1913.

Located only a short distance from the 1913 Ford is one of the fanciest cars ever built by Studebaker, a 1931 President touring car, one of only a few made by the company.

The owner, William S. Strayer, Dillsburg R. 1, is proud of the fact that the car was bought by the Commonwealth of Pennsylvania for its then governor, Gifford Pinchot. Although now concealed by paint, the outline of the state seal on the door of the vehicle is still discernible.

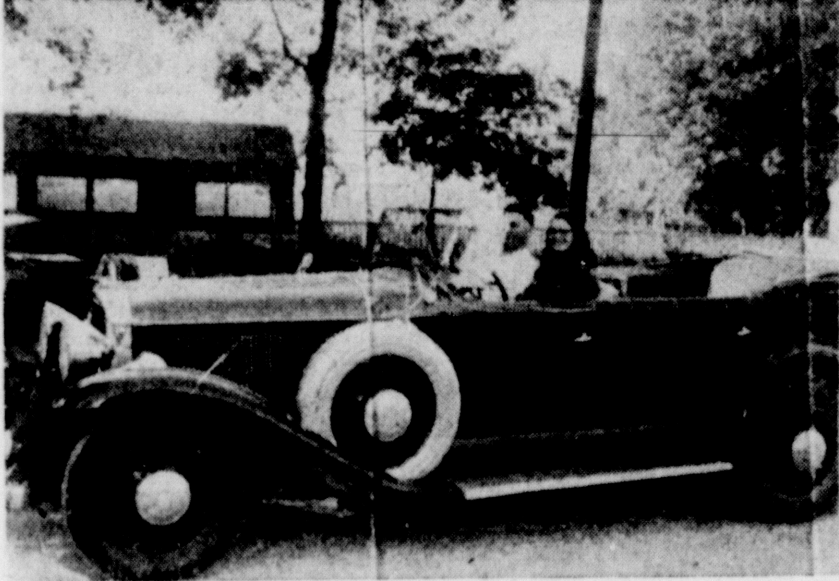

The 1931 car has already provided Strayer and his daughter, Marlene, with more than 2,000 miles of comfortable travel. The top can be raised, Strayer says, and has only one small hole in it.

The third vehicle, a 1915 Buick

owned by Dillsburg Butcher Charles Rider has also joined the group of antique autos chugging about over Dillsburg way.

And from the conversation of the old car owners one gains the impression that other venerable vehicles will soon join the three already at hand. When the pictures accompanying this article were taken, Baker and Strayer were about ready to leave for Beavertown where they planned to purchase a 1923 Buick. Strayer was all enthusiastic. "It has only 20,000 actual miles on it," he enthused, "and it's a beauty."

My Daze

AUTOMOBILE CORNER... Elsewhere on this page, you will see the fruits of a few years' labor by some local residents. I managed to get a look at Johnny Baker's Ford before he restored it, and it really is a tribute to his ingenuity when you see the finished car. Since we're in the mood for some automobile talk, you women who read this column every week, can go do the family wash, while I have a few words with the men...

PREDICTIONS FOR 1954... The horsepower race is not over and if you are in the market for a car in '54, you can look for some of the following to raise their horsepower in the coming year... Chrysler will probably go to 220, Lincoln is expected to top the field with approximately 225 or over... Cadillac will also raise their power merely to be classed at the top of the heap... Packard it is rumored, is not quite ready with its 225 hp V-8, and will probably be tooled up by 1955. As with Chevy, also a V-8 in 1955. Incidentally, the Packard will boast an aluminum block and head, when it is released. Ford and Mercury will have the overhead valve V-8 engine that is now used in the Ford trucks, and will carry from 130 to 160 hp... This will keep Chevy from advertising "Most power in the low price field"...

With the current valve and porting arrangement on the new Buick V-8 it doesn't look like they can go much above 188 hp (where they are now), but I have a hunch they will not be asleep at the wheel... It is believed that Buick will discontinue their present straight eight models, and make V-8s exclusively.
